

## **Sponsorship Opportunities for Nonnative, Invasive Plant Control Workshops in Southeastern Massachusetts**

Would you like to promote your services, message or mission to a select audience of people concerned about invasive plants, habitat management and natural resources? Are you interested in fostering education that benefits native plants and watershed health?

If your answer to either of these questions is yes, become a sponsor of Watershed Action Alliance's upcoming workshops on controlling terrestrial nonnative, invasive plants. A similar workshop will be held on three dates at different locations on the South Shore: Canton on April 9, Pembroke on April 16, and Plymouth on May 1.

The sponsorship levels are:

- Native Plant Friend (\$100-\$249)
  - o Name on WAA website, workshop announcements and digital communications. Logo on poster.
  - o Verbal recognition at all workshops.
  - o Permitted to hand out brochures or pamphlets at workshops.
- Native Plant Champion (\$250-\$499)
  - o All Friend benefits.
  - o Inclusion of name and/or logo in printed media, including press releases and flyers.
  - o Mention of your organization at least eight times in social media (Facebook, Twitter).
- Native Plant Hero (\$500+)
  - o All Friend and Champion benefits.
  - o Name and logo on event banner for all three workshops.
  - o May send a representative to speak briefly about the organization at a workshop of choice.
  - o May have a separate table and display at all workshops.

If interested, contact Dorie Stolley at [dorie.stolley@jhu.edu](mailto:dorie.stolley@jhu.edu) as soon as possible.
